Dear John

## E.C.READ'N Tour

Thank you for participating in the above tour and the contribution you made to the support of our summer reading programme "Go Bush – Tramp into Reading".

Feedback from the libraries visited indicates that your sessions were very well received.

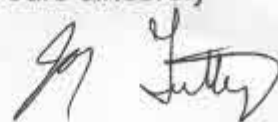

"Very professional performance - even disruptive pre-schoolers were dealt with in a very gentle and sensitive manner".

"The children were enthralled by John's storytelling ability and absolutely loved the way he changed his voice for each different character".

All the libraries appreciated your timekeeping and prompt arrival. Many libraries are stretched to the limit trying to maintain their regular services and provide the programme at the same time. Good timekeeping from our guest artists is a great help in maintaining our sense of humour!

This programme currently runs in 23 libraries in the Gisborne, Hawkes Bay, Wairarapa, Manawatu and Horowhenua areas with interest in buying into the programme being shown from many other libraries. We have appreciated having you on board for this year's programme and for helping us to spread the word that libraries and reading can be a "fun" way of spending the summer holidays.

Yours sincerely
